

## Project Design Phase-II Data Flow Diagram & User Stories

Date	03 October 2022
Team ID	PNT2022TMID04288
Project Name	University Admit Eligibility Predictor
Maximum Marks	4 Marks

### Data Flow Diagram:

## User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Gmail	I can have the accessibility to my account	Medium	Sprint-1
	Login	USN-4	As a user, I can log into the application by entering email & password	I can have the accessibility to my account	High	Sprint-1
	Profile Update	USN-5	As a user, after logging in, I will update my profile with the necessary information.	I can finish the profile to continue with the prediction procedure	High	Sprint-2
	Select University	USN-6	As a user, I will be able to examine the list of universities to which students may eligible to apply	I can select the university from the universities list given in the menu	High	Sprint-3
	Select course	USN-7	As a user, I will be being able to see the list of courses for which students can apply	I can select the course that I preferred to study, from the course list given in the menu	Medium	Sprint-3
	Admission procedure	USN-8	As a user, I'll be able to see information about the admissions process, such as the time and location of the certification verification.	I can see the information about the admission procedure that is given at the conclusion of the prediction	Low	Sprint-4
Administrator	Authenticate	USN-9	As a admin, I can authenticate the user's log-in information.	I can get all user information and use it.	High	Sprint-1
	Verify user details	USN-10	As a admin, I can ensure the user's entered information	I can verify and access the user information.	High	Sprint-2
	Prediction	USN-11	As a admin, I may analyse the user information using ML algorithms like linear regression to evaluate the generated ML model.	I can evaluate user information with the use of trained ML model	High	Sprint-3
	Output/outcome	USN-12	As a admin, I may include the user's confirmation in the database for the prediction process.	I can maintain user data and activity records by storing them in a database.	High	Sprint-4
