➔

**Before you collaborate**

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A

**Team gathering**

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

**Set the goal**

Think about the problem you'll be focusing on solving in the brainstorming session.

C

**Learn how to use the facilitation tools**

Use the Facilitation Superpowers to run a happy and productive session.

1

**Define your problem statement**

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we select the top university?

PROBLEM

How might we forecast the likelihood of admission to the university?

PROBLEM

How might we Create a predictor of a student's eligibility for admission to a university using their grades?

**Key rules of brainstorming**

To run an smooth and productive session

➕

Stay in topic.

💡

Encourage wild ideas.

⏸

Defer judgment.

👂

Listen to others.

🗣

Go for volume.

👁

If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

Shubhadeepa Sahu

Investigate several university admissions procedures

Select the user inputs that will be provided

Assist students in selecting the appropriate college

Verify the data gathered about the universities

Remove any potential data redundancy from the model

Show a video tutorial explaining how the model works

Sharmila L

Ensure the student is a legitimate applicant

Must motivate applicants even further if they are not qualified

Make sure to verify the course duration

It is necessary to check the university's amenities.

The university-related information should be accurate.

Must provide details about student clubs

Rufina B

They can select the closest college location

Graph representing predictability will be provided

College rank and student cutoff are contrasted

There must be enough reviews of the institution

Maintain the privacy of the applicant's information

Inform students about university entrance tests

Yuva Chaitanya M

Authentication with a security intent

List placement records of college

Share details on the cutoff for the previous year.

Information on transportation infrastructure

Implement data visualisation tools

Check out the university's scholarship offerings

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

The information regarding the universities must to be accurate

Ensure that the student is a legitimate applicant

Primary courses will be accessible in accordance with the cutoff

Reputed colleges offer successful placements

### Step-3: Idea Prioritization

4

#### Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes
